

Pricing Sheet

In order to keep the costs of your healthcare low, Pure Light Chiropractic has chosen to be a cash-based practice which means we do not accept any forms of insurance (we do accept cash, check, or credit card). By eliminating the paperwork and not negotiating with a 3rd party over the value of your well-being, Pure Light Chiropractic is able to concentrate fully on its patients. It can therefore afford to charge reasonable fees that are comparable to most people's co-pays. Our pricing structure also includes family tiering to make your care more affordable in the event that you choose to bring in multiple members of your family. In order to use this REDUCED FEE SYSTEM we ask that you continue to share chiropractic with the community and actively refer others for the same important care you already receive.
